

## VIZYLAC HP

**For the use of a Registered Medical Practitioner or a Hospital or a Laboratory only**

Abbreviated Prescribing information for VIZYLAC HP (Lactobacillus reuteri Capsules) [Please refer the complete prescribing information available at [www.torrentpharma.com](http://www.torrentpharma.com) ]

**PHARMACOLOGICAL PROPERTIES:** *Lactobacillus reuteri* can reduce the helicobacter pylori load of the stomach thus reducing the risk of developing gastritis and gastric ulcers.

**INDICATION:** Lactobacillus reuteri is indicated as health supplement for H. pylori control and for alteration of intestinal bacterial flora.

**DOSAGE AND ADMINISTRATION:** *Dosage-* Not to exceed the recommended daily usage. Recommended usage level: One capsule twice a day for gastric health in adults. Duration of Use: Daily intake as per recommended usage. *Administration-* Oral administration, Take capsule as advised by your doctor. The capsule should be swallowed as a whole with a glass of water. Do not crush, chew or break it. For children, the contents in capsule can be mixed with food or drink that is at room temperature.

**CONTRAINDICATION:** None known

**WARNINGS & PRECAUTIONS:** Do not use if hypersensitive to the active ingredient or excipients. Product is not to be used as a substitute for a varied diet, NOT FOR MEDICINAL USE. This product is not intended to treat, cure, mitigate or prevent any disease, disorder or condition. Physiological condition & Purpose of Product: This product is intended to support health function. It's a probiotic food. May contain milk, soy and nuts. If you are allergic to lactobacillus reuteri or any other medicines, please tell your doctor. Pregnant or lactating women or people with medical conditions should consult a healthcare professional before use. Lactobacillus reuteri is not recommended for children unless advised by a doctor. Avoid alcohol consumption with lactobacillus reuteri as it increases the risk of adverse effects. If you have chills, high fever or persistent cough, inform your doctor immediately as these might be signs of infection. You are recommended to complete the full course of treatment as prescribed by your doctor for effective results.

**DRUG INTERACTIONS:** *Drug-Drug Interaction:* Lactobacillus reuteri may interact with antifungals (ketoconazole, clotrimazole, griseofulvin, nystatin). *Drug- Food Interaction:* Lactobacillus reuteri may interact with alcohol. Therefore, avoid alcohol consumption with Lactobacillus reuteri as it may increase adverse effects. *Drug-Disease Interaction:* If you have diabetes, a weak immune system, recurring urinary tract or vaginal infections, inform your doctor before taking Lactobacillus reuteri.

**ADVERSE REACTIONS:** An increase in stomach gas or bloating may occur. If this effect lasts or gets worse, notify your doctor or pharmacist promptly. Tell your doctor right away if you have any serious side effects, including: signs of infection (such as cough that doesn't go away, high fever, chills). A very serious allergic reaction to this product is rare. However, get medical help right away if you notice any symptoms of a serious allergic reaction, including: rash, itching/swelling (especially of the face/tongue/throat), severe dizziness, trouble breathing. This is not a complete list of possible side effects. If you notice other effects not listed above, contact your doctor or pharmacist.
