

CURATIO

The purpose of a regular bath is to **(a)** Feel fresh and **(b)** Clean the dirt, scales & flakes that might have accumulated during your daily activities. While these dirt needs to be cleaned, the process of such cleaning should not cause damage to the skin's topmost protective layer. To help you achieve this, your Doctor has advised you to use SEBORBAR® in the place of the conventional soaps.

In the interest of your sensitive skin it is important to follow your **Doctor's advice** for years to come.

Share your feedback with the Doctor on the benefits you have experienced, so that he/she can monitor the progress made.

You may Inform **Curatio Customer Care** through email (customer care@curatiohealthcare.com) by providing the Retailer's Name, Contact No. & Address to **help us to maintain adequate stocks** for your further needs.

In case of queries,
please contact marketer address or

SEBORBAR®
Bathing bar

CURATIO

Curatio Health Care (I) Private Limited
Mamatha Complex, 4th Floor, No 25/13,
Whites Road, Royapettah, Chennai 600014. India.

Greetings to You.

Your Physician has advised you to use SEBORBAR® for bathing in place of the soap you are currently using.

The SEBORBAR® you purchased comes in a Carton containing SEBORBAR®, the cleansing bar, a Drain Tray and this Leaflet of tips.

Adhering to the following simple tips will help you to get most out of your SEBORBAR®

1
Always keep SEBORBAR® on top of the Drain Tray after use, away from running water.

2
This Drain Tray is provided to keep SEBORBAR® dry.

3
Keep SEBORBAR® away from the reach of infants & kids, after the bath, to avoid playing with it in your absence.

4
Inform your regular retailer from where you procure healthcare products about your regular need of the prescribed SEBORBAR®, which will help him to maintain the required stocks to meet your needs.
