

CURATIO

You may inform **Curatio Customer Care** through email (customercare@curatiohealthcare.com) by providing the Retailer's name, contact no. & address to **help us to maintain adequate stocks** for your further needs.

The purpose of cleansing for acne prone skin is to **(a)** Clean the dirt, sweat & excess oil that might have accumulated during your daily activities and **(b)** Feel fresh. While the dirt needs to be cleaned, the process of such cleaning should not cause damage to the skin's topmost protective layer. To help you achieve this your Doctor has advised you to use AKNAYBAR in the place of the conventional soaps.

In the interest of your sensitive skin it is important to follow your **Doctor's advice** for years to come.

Share your feedback on the benefits you have experienced with your **Doctor** who would like to monitor the progress made.

For any doubts

AKNAYBAR

CURATIO

**Curatio Health Care (I) Pvt Ltd.**  
Mamatha Complex, 4<sup>th</sup> Floor, 25/13,  
Whites Road, Royapettah, Chennai 600014. India.

### *Greetings to You.*

Your Physician has advised you to use AKNAYBAR for bathing in place of the soap you are currently using.

The AKNAYBAR you purchased comes in a carton containing AKNAYBAR, the cleansing bar, a Drain Tray<sup>a</sup> and this leaflet of tips.

Adhering to the following simple tips will help you to get most out of your AKNAYBAR

1

Always keep AKNAYBAR on top of the Drain Tray<sup>a</sup> after use, away from running water.

2

This Drain Tray is provided to keep AKNAYBAR dry.

3

Keep AKNAYBAR away from the reach of infants & kids, after the bath, to avoid playing with it in your absence.

4

Inform your regular retailer from where you procure healthcare products about your regular need of the prescribed AKNAYBAR, which will help him to maintain the required stocks to meet your needs.
