#### PART - F

Please specify the characterisation (in terms of composition quantum) of hazardous as well as solid and indicate disposal practice adopted for both these categories of wastes.

- ETP sludge contains mostly inorganic / Organic substances is being stored in bags and kept at dedicated Hazardous waste storage area, This ETP sludge is finally disposed at common TSDF site of SEPL / Eco-care.
- Hazardous Waste like date expired drugs & off specification products, Process residue
  waste is being stored at dedicated Hazardous waste storage area and sent to the
  Common hazardous waste Incineration facility of SEPPL / Pre-processing waste of
  RSPL.
- Hazardous waste like used oil, spent solvent & discarded container are stored at dedicated area and sent to the Regd. Recyclers for recycling & Stored at dedicated separate storage area.

#### PART - G

Impact of the pollution abatement measures taken on conservation of natural resources and on the cost of production.

- Company has installed solar power generation system of 140 KW for the generation of renewal energy /power.
- Standby high energy efficient Blower for aeration tank has been installed and keep in operation.
- Company has ordered Sludge dryer it will reduce ETP sludge volume for TSDF it will be installed in year 2024.
- Solar water heater system is being used for the boiler feed water & same solar water heater system at kitchen area.
- Treated Effluent analysed and used for gardening & plantation within the company premises.

#### PART - H

Additional measures / investment proposal for environmental protection including abatement of pollution prevention of pollution

• ETP sludge dryer is schedule to install in Year 2024 resulting reduction of ETP sludge volume.

#### PART - I

# Any other particulars for improving the quality of the environment

- Creating awareness by various trainings, celebrating world Environment Day, plantation activity and maintain good green belt, proper segregation of waste, waste minimization waste / recycle / reuse.
- Installation of energy efficient equipment's.
- Installation of solar and wind energy.
