

## CUTICAPIL STEM

**For the use of a Registered Medical Practitioner or a Hospital or a Laboratory Only**

Abbreviated Prescribing information for CUTICAPIL STEM  
[Please refer the complete prescribing information for details].

### HOW DOES CAPILIA HAIR SERUM ACT?

Procapil targets the root causes of alopecia: poor scalp microcirculation, follicle-atrophy caused by dihydrotestosterone and follicle aging. Apigenin by vasodilatation around hair follicle enhances blood perfusion. Oleanolic acid inhibits production of dihydrotestosterone through 5 $\alpha$ -reductase. Biotinyl - GHK provides anti-aging activity on hair follicle keratinocytes with maintenance of a viable root sheath and enhanced structuring by adhesion proteins responsible for anchorage of hair in the dermis and thus strengthened growth.

Liposome based Caffeine can efficiently modulate the barrier properties of the stratumcorneum and transport its active ingredients deep into the skin where it can effectively treat and reduce hair loss. Caffeine improves hair growth by inhibiting the activity of 5 $\alpha$ -reductase and stimulating cellular metabolism.

Cressantine is an extract of watercress (*Nasturtium officinale*) and Indian cress (*Tropaeolum majus*). It is specially titrated with sulfur and other elements which are needed to produce keratin for solid, well-structured hair.

Biotin Plus enhances the quality of scalp hair in person with fine or brittle hair. It also proliferates hair growth.

**INDICATIONS:** Cuticapil Stem is packed with bioactives and micronutrients that help to minimize hair fall, Nourishes and Strengthens hair root.

### DIRECTION FOR USE

Make sure your scalp is dry; part your hair in the area of hair thinning; Take 1 ml of Cuticapil and spread the liquid evenly over the hair loss area. If you are using fingers, wash hands with soap and water.

### HOW TO USE CUTICAPIL HAIR SERUM?

- Spray 5 to 6 times over the entire scalp evenly and firmly
- Rub with fingers gently
- apply twice daily, after bath and before bed time

**CONTRAINDICATION:** Do not apply on broken skin. Do not use on scalp that is red, painful, cut or infected. Avoid contact with eyes. If contact occurs wash with plenty of water. Do not use if you have hypersensitivity to the active substance or to any of the excipients.
